

Pay It Forward Tour

The Pay It Forward Tour is a spring break community service experience designed for college students. The Tour consists of students traveling across the country by motor coach, and serving in communities along the way. In March of 2006, 10 buses will travel the nation, 47 communities will be served, and 400 lives will be changed. A Tour organized by STLF at the U or M—Morris will be traveling to the New Orleans Area where they will serve the communities victimized by Hurricane Katrina.

Our Mission

STLF incessantly strives towards its mission to follow dreams, serve the people, and change the world, by providing opportunities of service, leadership and personal development. Through interaction, education, and reflection, we allow people to step out of their comfort zones and into a judgment-free area of acceptance and love allowing people to grow in idealism and optimism. By supporting all, we encourage people to be who they are separate from societal expectation. STLF promotes initiative and lives with passion; we pave the way for youth, believe in others, and will forever aspire to create optimism where there is none, see hope where it is unclear, and unconditionally love when all seems empty.

STUDENTS TODAY LEADERS FOREVER

Students Today Leaders Forever is a student driven servant leadership organization. In the fall of 2003, the organization was founded at the University of Minnesota with the idea of organizing a spring break Pay It Forward Tour. Since then, STLf has dramatically expanded in size and scope. In addition to the Pay It Forward Tour expanding from over 40 students in its first year to 400 students from across the country this spring, STLf now also operates high school leadership camps and is an official nonprofit organization. To date, STLf has 9 active chapters throughout the Midwest. Join us and be part of the movement today!

Come help us change the world!

“STLF is a wonderful example of Paying It Forward in action. It's been great watching the students' efforts grow, and watching the ripple effect change lives and opinions. I hope everyone will help them out this year by getting involved in whatever way they can. My hats are off to these young leaders.”
